SUMMARY

Motivated and detail-oriented aspiring software developer with knowledge of web development and programming. Skilled in building responsive and user-friendly applications using modern technologies. Passionate about solving problems and continuously learning new skills to improve performance and deliver quality solutions.

SKILLS

Technical Skills:

- HTML
- CSS
- Tailwind css
- JavaScript
- React
- Node.js
- Git

Soft Skills:

- Problem-solving
- Teamwork
- Communication

PROJECTS

AI-Based Facial Recognition System for Secure Access Control

- Designed and developed a facial recognition system for authentication and access control
- Implemented image processing and AI-based detection techniques
- Improved system security by allowing only authorized users access
- Tested and optimized the system for better accuracy and performance

Technologies: React, OpenCV

Computerized Population Analysis System

- Designed and implemented a system for analyzing population data
- Collected, processed, and stored demographic information efficiently
- Generated reports and insights to support decision-making
- Improved data accuracy and reduced manual processing

Student/Event Management System

- Developed a system to manage events and notifications
- Used local storage and dashboard UI for data handling
- Improved user interaction and system efficiency

PROFESSIONAL EXPERIENCE

- Frontend Developer (Personal Projects)- Developed responsive web applications using React, JavaScript, and Tailwind CSS
- Built and tested user interfaces focused on usability and performance
- Applied problem-solving skills to debug and improve application functionality

EDUCATION

HND (Higher National Diploma)

Federal Polytechnic Oko

09/2025 – 07/2027

Anambra, Nigeria

Currently pursuing a Higher National Diploma (HND) in a technology-related field at Federal Polytechnic, Oko.

Gained knowledge in software development, programming, and computer systems. Developed practical skills in building applications, problem-solving, and working with modern technologies.

Participated in academic projects involving web development and system design, with a strong focus on improving technical and analytical skills.
